AB-1 / Product Search & Navigation

Verify all products are displayed on the main product page

Priority	Severity	Behavior	Type
High	Major	Positive	Integration
Layer	**Is Flaky**	**Is Muted**	**Automation**
E2E	No	No	Manual
Status	**Milestone**		
Actual	-		

Description

- Open the product listing page and ensure all expected products load.
- Check the total number of products matches the database/catalogue.

Steps to reproduce

#	Step	Action	Expected Result
1	• Visit Find bugs page	https://academybugs.com/find-bugs/#	• Page loads successfully without errors • Product grid/list is visible.
2	• Count the number of products displayed on the page.		• The total number of visible products is consistent (e.g., 18 products displayed).
3	• Compare the number with the expected count from the catalog/database.	Showing all 18 results	• Expected count is visible at the top left corner of the product list with blue text "Showing all 18 results" • The number of displayed products matches the catalog/database.

Verify product images are displayed correctly

Priority	Severity	Behavior	Type
High	Major	Positive	Integration
Layer	**Is Flaky**	**Is Muted**	**Automation**
E2E	No	No	Manual
Status	**Milestone**		
Actual	-		

Description

- Ensure each product has an image.
- Check that images load fully and are in correct format (JPG/PNG) and proper resolution.
- Verify no broken image icons are present.

Steps to reproduce

#	Step	Action	Expected Result
1	Visit Find Bugs page	https://academybugs.com/find-bugs/#	The page is loaded and displayed successfully
2	Observe each product name has a compatible image		• All 18 products have a compatible image that fully represent each one
3	Verify that images load fully without distortion		• Images are clear, not pixelated or stretched
4	Check that no broken image icons are shown		• No missing images or “broken image” placeholders appear

Verify product names are displayed

Priority	Severity	Behavior	Type
High	Critical	Positive	Integration
Layer	**Is Flaky**	**Is Muted**	**Automation**
E2E	No	No	Manual
Status	**Milestone**		
Actual	-		

Description

- Check that each product shows a visible and readable name.
- Ensure names do not overlap or cut off.

Steps to reproduce

#	Step	Action	Expected Result
1	Visit Find Bugs page	https://academybugs.com/find-bugs/#	The page is loaded and displayed successfully
2	Look at the name text below each product image.		: Each product shows a readable name (e.g., DNK YELLOW SHOES, DARK GREY JEANS, FLAMINGO TSHIRT)
3	Verify that names are not cut off or overlapping.		Names are fully displayed, aligned properly, and easy to read.

AB-4 / Product Search & Navigation

Verify product prices are displayed correctly

Priority	Severity	Behavior	Type
High	Critical	Positive	Integration
Layer	**Is Flaky**	**Is Muted**	**Automation**
E2E	No	No	Manual
Status	**Milestone**		
Actual	-		

Description

- Each product must show a price.
- Confirm that the price is formatted correctly (e.g., currency symbol, decimals).
- Verify sale/discount prices are displayed correctly if applicable.

Steps to reproduce

#	Step	Action	Expected Result
1	Visit Find Bugs page	https://academybugs.com/find-bugs/#	The page is loaded and displayed successfully
2	Look below the product name for the price.		• Each product shows a price (e.g., $45.00, $46.00, $15.14).
3	Verify that the price is formatted correctly.		• Prices include a dollar sign and two decimals.
4	Check if sale/discount prices are displayed correctly.		• If a product is discounted, the old price is shown crossed out and the new sale price highlighted.

Verify product links navigate to product detail pages

Priority	Severity	Behavior	Type
High	Critical	Positive	Integration
Layer	**Is Flaky**	**Is Muted**	**Automation**
E2E	No	No	Manual
Status	**Milestone**		
Actual	-		

Description

- Click on a product and confirm navigation to the correct product detail page.
- Check that all product info matches listing page (name, price, availability).

Steps to reproduce

#	Step	Action	Expected Result
1	Visit Find Bugs page	https://academybugs.com/find-bugs/#	The page is loaded and displayed successfully
2	Click on a product name or image.		• Browser navigates to the selected product's detail page.
3	Check that product details (name, price, availability) match between listing and detail page.		• Information on the detail page matches what was displayed in the listing (e.g., Flamingo T-Shirt, $15.14).
4	Confirm navigation works without errors.		• No broken links or incorrect redirections occur.
