

■ QA Portfolio – AcademyBugs Project

This document represents my QA work on the **AcademyBugs** e-commerce demo project. The scope included designing test cases, writing user stories, executing functional and UI tests, logging bugs, and managing tasks in Jira. ■ **Tools Used**: Qase.io (Test Cases), Jira (Stories, Tasks, Bugs), AcademyBugs (Test Site) ■ **Focus Areas**: Product Listing, Shopping Cart, Checkout, UI/Responsiveness, Filters & Sorting ■ **Deliverables**: Structured test cases, user stories with acceptance criteria, linked tasks, and detailed bug reports

1■■ User Story: Shopping Cart Functionality Testing

As a customer, I want to view and manage the items in my cart, so that I can confirm my selection and proceed to checkout.

Acceptance Criteria
■ Items added to the cart should be displayed correctly with name, image, price, and quantity.
■ User should be able to update the quantity of items in the cart.
■ User should be able to remove items from the cart.
■ Cart total should update correctly after adding/removing/updating items.
■ “Proceed to Checkout” button should redirect the user to the checkout page.
■ If the cart is empty, a proper message should be displayed (e.g., 'Your cart is empty').

■■ Related Tasks

- ABP-18 – UI and Responsiveness Testing
- ABP-17 – Validate 'Proceed to Checkout' Redirection
- ABP-16 – Verify Total Price Calculation
- ABP-15 – Validate Remove Item Functionality
- ABP-14 – Test Update Quantity Functionality
- ABP-13 – Verify Cart Item Display

■ Related Bugs

- ABP-21 – Product quantity cannot be increased past 2

Severity: High | **Type:** Functional

Steps to Reproduce:

- Open <https://academybugs.com>
- Click the Find Bugs link on the navigation bar
- Add one or more products to the cart
- Click the 'View cart' link on top of the page
- Set the products quantity to 3 or more
- Click 'update' below

Expected: The product quantity can be increased past 2

Actual: When clicking on the update button the product quantity becomes 2 again

■ **ABP-20 – Unreadable symbols displayed in shopping cart popup**

Severity: Low | **Type:** Content

Steps to Reproduce:

- Open Home Page
- Click the Find Bugs link in the navigation bar
- Add one or more products to the cart
- Click View Cart at the top of the page
- Scroll down to the Shopping Cart section in the right side menu
- Hover over the Shopping Cart caption

Expected: All characters should be displayed clearly and be readable.

Actual: Unreadable symbols are shown in the shopping cart popup.

2■■ User Story: Verify Product Catalog Page Functionality

As a QA tester, I want to test the Product Catalog (home) page of Find Bugs – AcademyBugs.com so that I can ensure that all products are displayed correctly, filters and sorting work, and the page meets functional and UI expectations.

Acceptance Criteria
■ All products are visible on the catalog page.
■ Each product displays correct details (image, name, price).
■ Pagination or infinite scrolling works as expected.
■ Filters (e.g., by category, price) display correct product results.
■ Sorting (e.g., by price, popularity) updates the product list correctly.
■ The page layout is consistent across desktop and mobile.

■■ Related Tasks

■ ABP-6 – UI & Responsiveness Testing

■ ABP-5 – Test Pagination/Scrolling

■ ABP-4 – Test Sorting

■ ABP-3 – Test Filters

■ Related Bugs

■ ABP-19 – Product description not in English

Severity: Medium | **Type:** Content

Steps to Reproduce:

- Navigate to <https://academybugs.com>.
- Click on the Find Bugs link in the top navigation bar.
- Select and open any product.

Expected: Both the product short description and the full description should be written in English.

Actual: The product short and full description are displayed in a non-English language.

■ ABP-11 – Product image not fully displayed

Severity: Medium | **Type:** UI/Visual

Steps to Reproduce:

- Open Home Page

- Click the Find Bugs link on the navigation bar
- Locate the product 'Dark Grey Jeans' and open it

Expected: The product image should automatically scale to fit and fill the entire image box.

Actual: The product image does not fill the image container. White space appears on the right side.

■ ABP-10 – Page freezes when changing number of results

Severity: High | **Type:** Functional

Steps to Reproduce:

- Open Home Page
- Navigate to Find Bugs from the navigation bar
- At the top left of the product list, click on any button to change the number of results displayed (e.g., 10, 25, 50)

Expected: The page should immediately update and display the selected number of products.

Actual: The page freezes and becomes unresponsive. Products are not updated correctly.

■ ABP-9 – Page freezes when changing currency

Severity: High | **Type:** Functional

Steps to Reproduce:

- Open <https://academybugs.com>
- Click the Find Bugs link on the navigation bar
- Open a product
- Change the currency in the right-side menu

Expected: The currency is changed as expected.

Actual: The page freezes when changing the currency.

■ ABP-8 – Price filter not working

Severity: High | **Type:** Functional

Steps to Reproduce:

- Open <https://academybugs.com>
- Click the Find Bugs link on the navigation bar
- Open a product

- On the right-side menu find the Filter by Price section
- Select any of the price ranges

Expected: A list of products in the selected price range is shown.

Actual: The same page reloads without updating results.

■ ABP-7 – Login for Pricing button redirects to blank page

Severity: High | **Type:** Functional

Steps to Reproduce:

- Open the Find Bugs product catalog.
- Scroll to a product (e.g., 'Dark Blue Denim Jeans').
- Click on the 'Login for Pricing' button.

Expected: The user should be redirected to the login page or shown a login modal.

Actual: The user is redirected to a blank page with no content.
